

## **The Department of Regulatory and Economic Resources (RER) announces the availability of DERM Optional Expedited Core Review Services effective February 5, 2018**

In order to streamline the permitting process and reduce permit issuance cycle times, RER is pleased to offer Optional Expedited Core Review Service for DERM. The Optional Expedited Core Review Service will allow a patron to receive an expedited plan review for a fee. This service is available for:

- Initial review of plans by Core Review Only
- Rework review of plans by Core Review Only
- Projects located within municipalities and the unincorporated municipal service area (UMSA)

The fee for the DERM Optional Expedited Core Review is \$75.00 for both residential and commercial projects. The non-refundable service fee must be paid at the time of request for service and is in addition to the regular permit fee.

Each review requested will be ready the next business day. However, complex projects may require more review time. The patron will be notified of this at the time of submittal. Please note that after the DERM Core review, other DERM specialties may apply and the review process will continue within DERM.

**For further information, please contact the Environmental Plan Review Section at (786) 315-2800.**

Thank you.
